

QVC STAFF RESTAURANT

**Client:**

QVC Shopping Channel

Contract Value:

£ 230 000

Contract Administrator:

Fisher Associates Limited

Project Details:

A winning entry for the refurbishment of existing offices into a modern dining area with kitchen and wash-up facilities.

The new facility was given an internal focus by having open dining, and Pangeous theatre-style cooking. Two distinct seating zones were also created, providing lounge seating with private alcoves, and a general dining area.

Bright blues and reds with warm wood to tables and chairs, keep the focus within. A wavy freestanding perforated aluminium screen camouflages the wash up area, enclosing the restaurant as well as providing a casual sandwich bar. Coloured lighting to the windows, back lit decorative panels and mood lighting to alcoves and restaurant provides a cosy atmosphere for relaxation.
